

A TRUE SHADE OF GREEN

ERP™ is a complete range of biodegradable* guest amenities made with *EcoPure®: an organic based, enzyme additive that renders common plastics as biodegradable* when discarded in landfill. EcoPure® breaks down the molecular structure of polymers to allow microbial action to take place. This can occur under anaerobic (**landfill**) and aerobic (**compost**) conditions.

Make your mark in our **industry** and not on our **planet** by choosing **Environmentally Responsible Products (ERP)™**

**ERP™ is the product trademark for Environmentally Responsible Products provided exclusively by Concept Amenities.

Eco.Fresh is a truly “green” biodegradable range of bathroom guest amenities, made with the exclusive EcoPure® organic based additive. Eco.Fresh amenities are fully biodegradable contents and packaging!

Many “so called” green products on the market don’t live up to their claims of biodegradability and those finished goods do not meet the ASTM D511 standards for testing plastics biodegradability but Eco.Fresh does! Eco.Fresh guest amenities will start to break down almost immediately when placed in a landfill.

**Smaller sizes available for less waste • Cruelty free • Recyclable
Sachets made from post consumer recycled paper • Biodegradable**

*ISO DIS15985 & ASTM D 5511-02 standard test performance to determine biodegradation of plastic packaging materials under hi-solids anaerobic - digestion simulating landfill conditions, independently conducted and analyzed by Northeast Laboratories Inc, CT.

***EcoPure® is a registered trademark of Bio Tec Environmental LLC.
