\*\*ERP™ is the product trademark for Environmentally Responsible Products provided exclusively by Concept Amenities.

Only Ecosential Elements offers a complete range of ERP™ (Environmentally Responsible Products) featuring EcoPure®, an organic based additive, which means our bottle is fully biodegradable. All of our soaps, soap bars and sachet packaging is also biodegradable.

Many "so called" green products on the market don't live up to their claims of biodegradability and those finished goods do not meet the ASTM D5511 standards for testing plastics biodegradability but Ecosential Elements does! Ecosential Elements ERP™ biodegradable bottles will start to break down almost immediately when placed in a landfill.

\*ISO DIS15985 & ASTM D 5511-02 standard test performance to determine biodegradation of plastic packaging materials under hi-solids anaerobic - digestion simulating landfill conditions, independently conducted and analyzed by Northeast Laboratories Inc, CT.
