

WHY ZAPLEX™ PROTECTIVE COVERS?

With today's germ conscious clientele, and the proliferation of a new disease in the media each day, it just makes sense to offer your guests the added protection they're looking for. Usually the first, last and most touched item in any hotel room is the TV Remote Control—The problem for your guests is the perception of how many previous guests also touched that same TV Remote Control. And worse yet, what did those people touch before they handled the Remote Control?

ZAPLEX is the simple sanitary solution to show your guests that you care about their health and well-being. One day soon, all guests will say, 'if you don't have ZAPLEX, we'll stay somewhere else...'

FEATURES:

- Easy for your housekeeping staff to apply
- Disposable: change with each new guest
- Anti-bacterial injected compound provides sanitary protection
- High perceived impact at a low cost per stay ratio
- Saves on lost batteries and their compartment covers
- Protects the TV Remote Control from spills and grime
- One size fits virtually all Remote Controls
